

**ENHANCING SPECIAL EDUCATION PRACTICES – LEARN MORE/WORRY LESS**

**Audience:** PreK-12 Special Education Teachers and Related Service Providers  
*(This course is especially designed for educators in their first few years of teaching.)*

Popular consultant Linda Waters returns with an expanded program for new and nearly new special educators. In response to last year's feedback, Linda has expanded the course to include a 3rd day! Do you wish you knew how to make meetings more effective? Does determining eligibility seem like a never-ending process? Do you wish your consulting strategies were more efficient?

There is always something new to learn in the world of special education. Linda Waters believes that after a few years in the field special educators are eager to reflect on their current practices and improve what they are doing. This course is designed for special educators in their first five years of practice or for those experienced educators who would like to review and improve their practices.

This course will provide an opportunity to refine skills in the areas of:

- Eligibility determination
- Designing specialized instruction
- Writing high quality evaluation reports
- Chairing effective and productive team meetings
- The 3 C's – communication, consultation and collaboration
- Writing comprehensive IEPs
- Facilitating effective inclusion models, including co-teaching
