

ONLINE PARAPROFESSIONAL TRAINING COURSE

Audience: Paraprofessionals

In support of building instructional capacity and providing exemplary educational services for all students, ACCEPT has developed an affordable online paraprofessional training program. This program offers total flexibility, allowing participants to begin at any time during the year. Advanced tracking features also allow districts to see participants' progress within each learning module to inform future professional development opportunities.

Each of the modules listed below requires approximately 2-3 hours to complete. They can be completed in any order. Our course utilizes the Moodlerooms online learning platform via Blackboard, one of the most widely used online course sites in higher education institutions. The ease-of-use and interactive features make this tool an invaluable resource to provide innovative professional development opportunities to your employees.

- Overview of Disabilities and Learning Styles
- Managing Challenging Behaviors
- Social-Emotional Learning and Supports
- Academic Accommodations & Modifications
- Building Self-Determination
- Trauma 101: Trauma Informed Treatment in Schools
- Augmentative and Alternative Communication (AAC) in the Classroom
- Supporting Struggling Readers

RESEARCH-BASED

ACCEPT's team of Board Certified Behavior Analysts, School Psychologists, Special Education Teachers, and Administrators have worked collaboratively to integrate research-based information and pertinent teaching strategies into each learning module. District paraprofessionals receive comprehensive instruction utilizing multi-modal teaching techniques including reading materials, video learning segments, interactive discussions, and handouts. Post-tests are also incorporated into each learning module.

REGISTRATION

This Training Course is available for Districts for the year 2017-18 (July 1, 2017 - June 30, 2018). Districts may choose to register for under 50 or over 50 paraprofessionals, including those who begin employment after the traditional school year starts! Your Registration will provide school year access to the Course!
